

*SPRINKLER HEADGUARD WITH  
WATER SHIELD FOR  
MODEL GL SERIES  
AUTOMATIC SPRINKLERS*

## **DESCRIPTION AND OPERATION**

The Globe Model GL upright sprinkler combined headguard and water shield is designed for use where mechanical injury to the sprinkler might be expected and where a water shield is needed to protect the sprinkler's thermosensitive element from the water spray discharge of higher elevation sprinklers which could operate sooner during a fire.

The Globe combined headguard and water shield can be used with either the 1/2" or 17/32" orifice Model GL upright sprinklers.

Typical areas of usage are in storage racks, under open grating or even outdoors as a protection from weather.

## **TECHNICAL DATA**

### **OVERALL LENGTH**

- 1/2" NPT sprinklers - 2 7/8"
- 3/4" NPT sprinklers - 3"

### **MATERIAL**

- Headguard - steel
- Water shield - steel

### **FINISHES**

- Red enamel painted
- Chrome plated

## **APPROVALS**

- FM Approved for use with the Globe GL Series 1/2" and 17/32" orifice upright sprinklers.
